

WHEN: Saturday and Sunday July 26-27, 2025. 9:00 AM 4:00 PM

WHERE: San Diego Model Yacht Pond on Vacation Isle

WHAT: Radio Controlled Power Model Boat Races

Follow the sixth in a series of eight NAMBA District 19 points races as it makes its way through San Diego. Starting the year at Lake Havasu City, Arizona and Las Vegas, Nevada then moving its way to the desert communities of Scottsdale and Tucson Arizona, we now reach the summer months and make stops at S. El Monte, California (Legg Lake at Whittier Narrows Regional Park) and here at the San Diego Mission Bay Parks San Diego Model Yacht Pond.

Expect over 120 boats racing over two days. Competitors who are racing for year end championship points will go head to head running 6 laps (almost one mile) on a course with 30 foot diameter turns expecting to hold their lanes in heat racing style. Points are accumulated after four rounds of racing based on their place of finish with the traditional John Perry Studio trophies awarded at the end of the day.

Come view Semi-Vee Flat Bottom Boats, Sport Hydros, Crackerboxes, Catamarans, Jersey Skiffs, Outriggers, and the crowd favorite Classic Thunderboats.

There is no fee for spectating. Bring a chair or a blanket and kick back and enjoy the San Diego summer sun.
